

Project Queries

- 1) Create a view to show all the books borrowed by the faculty in 'Electrical Engineering' department.
- 2) Show the average number of books borrowed by the graduate students in 'Computer Science' department.
- 3) Give the information of all the undergraduate students who have books overdue, and the fine they need to pay.
- 4) Find the names of the library branches where all faculty members from 'Computer Science' have borrowed some book from.
- 5) Get the titles of books that can be only borrowed from Branch B.
- 6) Show the students in 'Finance' department who renewed the current borrowed book.
- 7) Show all the new books that are not loaned out from Branch C. (Note that if all copies of a book are loaned out, then this book is loaned out.)
- 8) Find out the presses who have the maximum total numbers of book copies in Branch A, Branch B, and Branch C respectively.
